Our Goal

- To make the web safer and to show people how to prevent them from data leaks and being hacked by showing them how it is done.
- We also offer quality tools to assure the safety of the Internet user.

The problem

Phishing

Many people don't pay attention to the websites they are visiting

Weak passwords

That is problem, because they can be easily hacked.

Web Malwares

There are a lot of viruses hidden in briefsight

Our Solution

Frontend Technologies

HTML

CSS

Bootstrap 5

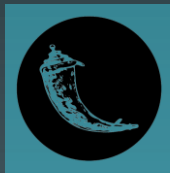

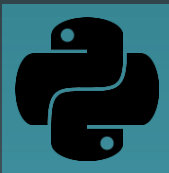

JavaScript

Backend Technologies

Python

Flask

SQLAlchemy
